

SISA AGM REPORT 2019-2020

Hi All.

This year saw registered numbers slightly Increase from last year 360 with 378 this year.

Corowa Swim Club 23 swimmers' small numbers as they are in the process of a new 50 Meter outdoor pool and indoor facility been built, Looking at 2021-2022 for completion

Winter S/C Meets: GT had to cancel their meet due to lack of numbers, plus the introduction of Swim Central that has caused confusion to all swimming clubs until the bugs where sorted out. Murray Clubs did not attend any SISA S/C Championships.

Summer Meets: Still with confusion with Swim Central Albury Open and ANL Open where run with reduced numbers, thank you to those SISA Clubs that travelled to Albury. Officials training took place at both these meets.

Albury and ANL attended NSW Country Championships at Canberra, this was a fantastic meet with record attendance. Albury just piped by the host club Tuggeranong into first place. This set up a rivalry between Albury and Wagga swimming clubs.

Wagga Swim Club hosted Speedo Sprints SISA Champs on a 44 plus degree weekend great effort to all involved. GT Aquatics sent a small team to compete and did well. Congrats to the host club on their win.

February saw the School meets and our local club Championships run and where looking forward to Nationals with around Eight Swimmers in contention before COVID 19 hit.

Development was to take place after Nationals, thank you Erica and Billy trying to get it up and running in Murray. More dialogue between coaches down here to what they want would be an asset.

Official Training still continuing With Michael Rehubaum and Matt Sexton from Albury gaining qualifications we still have some more doing training on pool deck at hopefully will gain further Qualifications. I am in the process of doing the Referee's course through NSW Swimming online.

Big thank you to Tom and the SISA Executive's on a challenging year their leadership over the last 12 months has been outstanding, and look forward to hopefully a full summer season of swimming in 2020-2021.

Regards Phil Evans

Murray VP.
